

.育賢學校
承投學校無線網絡服務書面報價表格

學校名稱： 育賢學校
學校檔號： YYST2526/003
截標日期 / 時間： 2026 年 2 月 12 日中午 12 時正

第 1 部分

下方簽署人願意按照正式訂單上訂明的日期及所列的價格，包括所有配套服務（勞工、材料及其他所有費用），以及校方所提出的細則，提供書面報價/投標附表上所列項目的服務。下方簽署人知悉，所有未經特別註明的項目，均須按照該細則的規定提供服務；書面報價/投標書由上述截止日期起計 90 天內仍屬有效；校方不一定採納索價最低的書面報價單/投標書或任何一份書面報價單/投標書，並有權在書面報價單/投標書的有效期內，採納某份書面報價單/投標書的全部或部分內容。下方簽署人亦保證其公司的商業登記及僱員補償保險均屬有效，而其公司所提供的服務不會損壞學校的校舍。

第 2 部分 — 現行確定書面報價書的有效期

有關本書面報價書的第 1 部分，現再確定本公司的投標書有效期至上述截標日期起計 90 日。下方簽署人亦同意，投標書的有效期一經再行確定，其公司先前刊於投標表格上註明有關此事之條款，即不再適用。

第 3 部分 — 確定遵守防止賄賂條例條款

競投人、其僱員及代理人不得向學校僱員、校董會成員，或負責考慮與本合約相關事宜的有關委員會的任何家長或學生代表提供利益（香港法例第 201 章《防止賄賂條例》所界定的「利益」）。競投人、其僱員或代理人向有關人士提供任何利益，根據《防止賄賂條例》可構成罪行，並可導致合約無效。學校亦可取消批出的合約，而競投人須為學校所蒙受的任何損失或損害負上法律責任。

防止串通行為條款

競投人、其僱員及代理人不得以任何形式（例如圍標）在投標過程中與其他競投人、其僱員及代理人串通。若承投者違反或不遵從本條文，將導致其投標無效。

利益衝突申報及資料保密

本人已細閱學校就利益衝突方面所制定的政策，並明白其內容。是次參與投標的商戶與本人及直系親屬並沒有業務往來或任何直接或間接的財務利益。並承諾不會在未經學校授權下披露有關報價或招標的資料。

第 4 部分 — 維護國家安全

下方簽署人確認即使報價／招標文件中有任何相反的規定，學校保留以其公司曾經、正在或有理由相信其公司曾經或正在作出可能構成或導致發生危害國家安全罪行的行為或活動為由，取消其公司資格的權利，又或為維護國家安全，或為保障香港的公眾利益、公共道德、公共秩序或公共安全，而有必要剔除其公司。

下方簽署人確認若出現下列任何一種情況，學校可以立即終止合約：

- i. 其公司曾經或正在作出可能構成或導致發生危害國家安全罪行或不利於國家安全的行為或活

動；或

ii. 繼續僱用其公司或繼續履行合約不利於國家安全；或

iii. 學校合理地認為上述任何一種情況即將出現。

日期：_____年_____月_____日

簽署人：_____ (姓名) _____ (簽名)

職銜：_____ (請註明職位)

上方簽署人已獲授權，代表：_____公司簽署書面報價書，該
公司在香港註冊的辦事處地址為

電話號碼：_____

傳真號碼：_____

商業登記號碼：_____

機構印鑑

育賢學校
承投學校無線網絡服務書面報價
不擬報價通知書

致： 育賢學校

有關 貴校的報價邀請（學校檔號：YYST2526/003）（截止書面報價日期：2026年2月12日中午12時），本公司 / 本人抱歉未能提供報價，理由如下：

（請於適用方格內加上✓號）

<u>原因</u>	<u>註（如需填寫）</u>
<input type="checkbox"/> 書面報價服務不在本公司的服務範圍之內	_____
<input type="checkbox"/> 未能符合報價規格	_____
<input type="checkbox"/> 未能按照截止書面報價日期報價	_____
<input type="checkbox"/> 其他理由(請說明)	_____

簽署：_____

姓名（請以正楷填寫）：_____

公司名稱：_____

(公司蓋印)

日期：_____

不擬書面報價者，請填妥此「不擬報價通知書」並連同書面報價書，
寄回上水馬會道育賢學校『無線網絡服務』專責委員會主席收

育賢學校
承投學校無線網絡服務書面報價
WiFi REQUIREMENTS SPECIFICATION

1. Introduction

The Contractor is invited to

- Provide and maintain a WiFi service through subscription mode.

2. Background

The School will **enhance / top up** the IT infrastructure so as to set up the necessary WiFi environment in the school premises (full WiFi coverage in ALL classrooms) for supporting e-learning in class. Regarding the enhancement of WiFi infrastructure, we would like to hire a contractor to design, build, operate and maintain the whole infrastructure; and to pay for the service by subscription thereafter, through a **subscription** model.

3. User Requirements

This section specifies the user requirements of the School of the WiFi network. The Contractor shall be capable of supporting the requirements set out below.

3.1 Standard Provision

- **WiFi Internet Connectivity** – use IEEE 802.11 ac network or above with at least one AP per following location, room A, room B, room C, room D, room E, room F, room H.
- **Number of Concurrent Connection** – commensurate with the maximum number of students, say 100, with at least 1Mbps upload / download bandwidth per connection. The contractor shall provide a PoC to prove that the required bandwidth can be supported for 100 devices at the same time before quotation award.
- **Authentication Method** – use 802.1x standard based authentication and Hong Kong Education City single sign-on services.
- **Session Control** – Hong Kong Education City authentication service can support one device or multiple devices to connect based on user group (student, teachers).
- **Internet Content Filtering Service** – based on filtering profile commonly adopted by most schools and specific requests made by the School on content filtering.
- **Existing Network Facilities** – The WiFi network shall be physically separated from the school network.
- **Broadband Network** – use separate broadband for the WiFi service. State

otherwise if the existing broadband can be utilized for the service.

- **Broadband Service** – provide at least 1Gbps Internet connection at school. Existing Broadband will not be used to support the wifi network.
- **Managed Service** – operate the WiFi network using managed service model, provide end-to-end service with single point of contact including configuration, provisioning of service, proactive monitoring, maintenance and regular reporting.
- **Service Level Agreement** – ensure at least 99.7% availability of the WiFi service, support four-hour response time and four-hour service recovery with active monitoring, helpdesk support with support hours from Mon to Sat 8:00 am to 6:00 pm, and provide monthly monitoring reports for the School.
- **Contract End Arrangement** – All provisions of trunks, conduits, cables, LAN ports and power points shall be considered as fixture of the School and shall become the property of the School. The Contractor shall remove or keep those provisions according to the instruction of the School. Contractor can remove the network equipment such as switch, routers, and access points.
- **1 Solution assurance and stability** – Accept only the brand's enterprise grade solution and support up to 4 years hardware warranty and life cycle. Any SME or consumer grade solution will not be considered.
- **Wi-Fi Industrial standard** – The manufacturer of the Wi-Fi should be positioned as a leader in the “2025 Gartner Magic Quadrant for Enterprise Wired and Wireless Lan Infrastructure”

3.2 Add-on Service (to be aligned with Part Y)

- **WiFi coverage** – to include special rooms and open areas, such as Principal Room, Office(校務處), Staff Room A, Staff Room B, Basketball Court, Study Room, Hall, Courtyard, Library, Computer Room.
- **Authentication Method** – user account system being used by school, etc.
- **WLAN system access control** – specific request on MAC address filtering.
- **MAC Address Monitoring** – The lists of filtering and filtered MAC addresses are to be monitored by the School.
- **Internet Content Filtering Service** – specific request on content filtering.
- **Internet addresses subscription & configuration** – for Internet access to school internal resources.
- **Monitoring of WiFi network** – Managed service model with partial monitoring by the School including but not limited to AP status and usage, client status, activity log and alarms.
- **Redundancy** – increase the availability of the WiFi service, such as a pair of WLAN controllers provided for redundancy purpose.
- **Support hours** – support hours extend to 7 x 24

3.3. Deliverables

3.3.1 The Contractor is required to provide the following deliverables for the WiFi network design:

- Master Activity Plan
- Network Configuration Report and Network Diagram
- Network Test Plan and Network Test Result Report
- Operation Manual for End User
- User Acceptance Test Plan
- Exit Plan

3.3.2 The Contractor is required to provide the monthly monitoring report with the following items:

- Network Health Report
- Network Usage Report
- Reporting of security incidents
- Reporting on trend and statistics of incident and their analysis
- Reporting of the failure rate for all equipment with detailed fault analysis
- Problem log and incident log for critical failure of the network
- Statistical report on the type and no. of calls
- Summary of the outstanding enquiry for the month-to-date

4. Technical Specification (Standard Provision)

4.1 WiFi Network

4.1.1 The Wireless LAN (WLAN) System of the WiFi network shall support simultaneous dual-operation-mode that is FAT Access Point (AP) and Thin Access Point are both supported together with WLAN Controller. WLAN Controller shall be capable of fully centralized provisioning, configuration and monitoring all APs functionalities; a backup of the WLAN Controller shall be available.

4.1.2 The thin client WLAN Access Point (AP) shall be a high performance wireless network access device, which shall be connected with the Power over Ethernet (PoE) Access Switches via Structured Cabling System. Appropriate type of connection cables between WLAN APs and the antenna shall be provided.

- 4.1.3 The WLAN APs shall be compatible with IEEE 802.11ac standard or above, support dual band of 2.4GHz and 5GHz. For 2.4Ghz the data rates of performance is up to 150Mbps. For 5Ghz the data rates of performance is up to 300Mbps.
- 4.1.4 The Contractor shall design the WLAN System to provide the coverage for the required wireless coverage place. The received signal strength measurement from the WiFi Service at the WiFi client device (such as tablet PC or notebook computer) is no worse than -68 dBm. The Contractor shall provide certificate or test report to illustrate that the WiFi client device for testing satisfies the power emission requirement.
- 4.1.5 The WLAN AP shall support DHCP, PoE, WPA2, IEEE 802.1x and certificate authentication.
- 4.1.6 The WLAN System shall support automatic channel selection, static MAC address filtering, protocol filtering, multicast/broadcast storm filtering and load balancing.
- 4.1.7 The WLAN system shall allow single or multiple devices per user account to be authenticated using 802.1x and Hong Kong Education City single sign-on service.
- 4.1.8 Each WLAN AP shall be able to support at least concurrent 100 users connecting to the network simultaneously. In no circumstance shall the speed of data transmission symmetrically fall below the data rate requirement at any place or any corner or any highly congested area within the areas being covered. In case the transmission speed is below the said data rates, the Contractor shall be responsible for all remedial measures to rectify or configure fine-tuning of antenna or even increase the quantity of the WLAN AP at Contractor's own costs in order to meet the data rate requirement as mentioned in the Specification. A complete set of catalogues with brand and model shall be submitted and highlighted for reference. The catalogues shall show all the features and technical specifications of the products and systems.
- 4.1.9 The system shall provide bandwidth control per user basis.
- 4.1.10 The WLAN shall allow different authentications by using Service Set Identifiers (SSIDs).
- 4.1.11 The SSIDs shall be able to be set hidden from searching by WiFi devices. The

devices have to manually set SSID to make connection.

- 4.1.12 Individual APs shall be allowed to be assigned by more than one SSIDs.
- 4.1.13 Antennas of APs shall be capable of detecting user locations in real time for direction switching while devices in motion.
- 4.1.14 The DHCP server shall support at least 30 queries/sec.
- 4.1.15 The Contractor shall provide a Captive Portal so that a landing page shall display on the user's browser when the user starts a browser session with the WiFi Service on the WiFi client device.
- 4.1.16 The landing page shall only be prompted once for the same session of the user so that the user will not have to go through the landing page when a new browser session is initiated from the same WiFi client device.
- 4.1.17 The WLAN system shall suspend the session of the user once the session control is expired and the suspension time shall be configured by the school.
- 4.1.18 The Contractor shall in provision of the service comply with non-interference requirements of and shall not cause interference prohibited under the Telecommunication Ordinance (Cap 106) or any other laws or regulation of Hong Kong.
- 4.1.19 The WLAN System shall provide termination of idle sessions and control of the duration features.
- 4.1.20 The WLAN System shall provide Wireless Client roaming when users moving from the WiFi signal coverage area of one Access Point to another Access Point within the School.
- 4.1.21 The WLAN system shall cover all areas specified under this quotation.
- 4.1.22 The quotation shall include the cost to provide sufficient quantity and its cabling work required, including but not limited to supply and install the Fibre optics, Cat 6 cable, Conduit, cable patch panel, cable faceplate, Cable patch cord.
- 4.1.23 The Contractor shall provide complete set of WLAN Systems which consist of Wireless Access Point, Connection Cable, Authentication System, Wireless LAN Controller, PoE Switch, horizontal UTP Cat 6 cable/OM3 Fiber, patch cable UTP Cat 6 / OM3 Fiber Optics, any required license and all associated

accessories.

- 4.1.24 The WLAN system deployed shall be non-Asian brand, but not limited to well-known brand in the market.
- 4.1.25 The contractor shall be authorized by the WLAN vendor to bid for this project to avoid any faked or low quality products are deployed. A vendor certificate shall be provided during the quotation submission.
- 4.1.26 The contractor shall have at least 5 x certified engineers on the proposed WLAN brand for at least 6 months.
- 4.1.27 Those certified engineers shall be permanent staff of the contractors for at least 6 months in order to ensure the service quality on deployment and after-sales services can be maintained. The Contractor shall submit those supporting documents during quotation submission.
- 4.1.28 The cabling deployed in the WiFi network shall be non-Asian brand, but not limited to well-known brand (e.g. Systimax, AMP, Krone, Brandrex, 3M & etc...).
- 4.1.29 The contractor shall be authorized by the cabling vendor to bid for this project to avoid any faked or low quality products are deployed. A vendor certificate shall be provided during the quotation submission.
- 4.1.30 The WLAN System and all access points (AP) shall be certified by OFCA and copy of certificates issued by OFCA shall be attached to the proposals.

- 4.1.31 The Contractor shall ensure that there is no interference between WLAN Access Points due to limited non-overlapping channels assignment when the WLAN AP is installed. The Contractor shall be responsible at his own costs for providing solution to eliminate the interferences including but not limited to reassignment of the non-overlapping channels, adding extra APs with lower transmission power and/or replacement of the WLAN AP.
- 4.1.32 The WLAN System shall support Web GUI management.
- 4.1.33 FTP service shall not be allowed in the WiFi network (to avoid exchanging credential and files in plain text without any encryption).

4.1.34 The WLAN System shall support IPV6 addressing method.

4.1.35 The WLAN System shall allow users to input MAC address list for filtering through management tools or web portal provided by the vendor.

4.1.36 The School shall have administrative right to configure all network equipment in the WiFi system including but not limited to WLAN Controller, APs, and Switches.

4.1.37 The WLAN Controller shall support time control for accessing WiFi service.

4.2 Core Switch

4.2.1 The Core Switch would be responsible for connecting all PoE access switches in typical floors for WLAN AP.

4.2.2 The Core Switch shall be capable of providing the required bandwidth, QoS, and policy-based routing to carry all sorts of information including video, voice, data, image, etc.

4.2.3 Each Core Switch shall provide a Gigabit Ethernet connection to each PoE Access Switch in typical floors.

4.2.4 The Core Switch shall support Layer 2 and Layer 3 switching and capable of providing the wired speed performance.

4.2.5 The Core Switch shall support basic IP unicast routing protocols, Static route, Routing Information Protocol (RIPv1, RIPv2), inter VLAN routing.

4.2.6 The Core Switch shall support Internet Group Management Protocol (IGMP) snooping and multicast and unicast storm control, Spanning-Tree Protocol.

4.2.7 The Core Switch shall support WebGUI Management, Access Control Lists (ACLs), DHCP Interface and SNMP.

4.2.8 The Core Switch shall support VLANs including support for IEEE 802.1Q and IEEE 802.1p.

4.3 PoE Access Switch

4.3.1 The Access Switches shall be deployed to provide high performance interconnectivity between the Core Switches and the WLAN APs on typical

floor.

- 4.3.2 The Access Switch shall consist of 8/12/24/48 x 10/100/1000Base-T Ethernet ports, with minimum of 1 x 1000Base-T / 1000Base-SX SFP Gigabit Ethernet uplink ports connected with the Core Switch.
- 4.3.3 The Access Switch shall be used for connecting the WLAN APs. The Contractor shall determine the Maximum power loading of the devices to be connected with the PoE Access Switches. The Contractor shall provide additional PoE Access Switch(es) if the total power loading summed up from the PoE devices exceeds the maximum power loading capacity of the PoE Access Switch.
- 4.3.4 The Access Switches shall support VLAN configuration.
- 4.3.5 The Access Switches shall be at wired speed.
- 4.3.6 The Access Switches shall be provided sufficient port density to meet all the required links.
- 4.3.7 The Access Switches shall support PoE and shall conform to IEEE 802.af / IEEE 802.3af standard, which delivers power over single copper UTP cable for WLAN AP.
- 4.3.8 The Access Switches shall support Internet Group Management Protocol (IGMP) snooping and multicast and unicast storm control, IEEE 802.1D Spanning-Tree Protocol.
- 4.3.9 The Access Switches shall support Virtual local area network (VLANs) including support for IEEE 802.1Q and IEEE 802.1p.
- 4.3.10 The Access Switches shall support WebGUI Management, Access Control Lists (ACLs), DHCP Relay and SNMP.

4.4 Firewall

- 4.4.1 The performance of the Firewall shall not be degraded with 100% Internet bandwidth utilization.
- 4.4.2 Network Address Translation (NAT) is required.

- 4.4.3 Access Control Policy is required.
- 4.4.4 The configuration settings of the appliance shall be allowed to export to files for backup and restore for rapid recovery and shall control all incoming and outgoing Internet traffic, serving as the sole entry and exit point between the Internet and the WLANs in all locations.
- 4.4.5 The configuration settings of the appliance shall support blocking specific network ports, including ports of Transmission Control Protocol (TCP) and User Datagram Protocol (UDP). Blocking denial of service (DoS) attacks and malformed packet attacks shall also be configured.
- 4.4.6 The firewall policy should be applied to control network traffic such that public users should be prohibited to access the internal network segments of the School.
- 4.4.7 The firewall shall be scalable to support broadband over 800Mbps without performance degrade. If it cannot be supported in the future, the contractor shall bear all the hardware, software and service cost for replacement.

4.5 Service Requirements

- 4.5.1 The Contractor shall be responsible for the total project management and shall assign a person to act as the single contact point to the School regarding all related activities of the contract. This single contact point cannot be transferred to a sub-contractor unless explicitly agreed by the School. Contractor should formally inform the School in writing if there is a change of contact point.
- 4.5.2 The project manager of this project shall be the permanent staff of the contractor for at least 6 months. The contractor shall prove that the project manager is the permanent staff by providing supporting documents during quotation submission.
- 4.5.3 The project manager shall attend the project meeting before completion of the project.
- 4.5.4 The Contractor shall provide rack/cabinet or use existing school rack if there is available rack space. All switches/firewall shall be properly installed into wall mounted cabinet or rack.
- 4.5.5 Cables shall be labelled with connected port and its device id.

- 4.5.6 All the equipment shall be labelled with an identifiable id.
- 4.5.7 The placement of cables, cabinets, racks and appliances shall be shown on the network diagram.
- 4.5.8 Switches and/or other appliances shall be properly installed into cabinet/rack with appropriate ventilation.
- 4.5.9 13A power cord(s) shall be bundled with appliance(s).
- 4.5.10 Cable shall be properly set up onto appropriate cable management guide.
- 4.5.11 Contractor should make sure that the actual environment is suitable for the installation and operation of equipment with School agreement in advance, and make necessary suggestions, if any.
- 4.5.12 Cable length shall not be excessive nor too short in which preventing door opening or closing.

4.6 Service Level Requirements

- 4.6.1 The Contractor shall provide incident/problem report to the School within 5 working days after each incident and the resolution taken.
- 4.6.2 The Contractor shall derive mechanism, including forms and reference tables for measuring and recording the Service Level Measures, to ease the administration and monitoring by the School.
- 4.6.3 Advance notice by at least 2 weeks shall be given to the School prior to all scheduled maintenance. At most 4 scheduled maintenances per year are excluded from the calculation of Service Levels. No more than 1 hour service interruption or an agreed time slot is accepted for each scheduled maintenance.
- 4.6.4 Service Level, expressed in percentage, is the ratio of actual available time to the scheduled available time for the WiFi network of the School and is calculated according to the following formula:

Service Availability Level = (Schedule Uptime within the month – Unscheduled Downtime within the month) / Scheduled Uptime within the month, where

Scheduled Uptime: The duration, in unit of minutes, for the WiFi network of the School is scheduled to be available for the month. The duration will exclude the scheduled downtime, which is defined as duration agreed between the School and the Contractor during which the service may be deliberately made unavailable to users.

Unscheduled Downtime: The amount of time, in unit of minutes, that the service are unavailable due to equipment failure or other reasons under the responsibility of the Contractor.

4.7 Service Level Rebates

- 4.7.1 The Service Rebates to the School operate as liquidated damages for the performance fallen short of the target service levels over a period of one month. The service measures stipulated in 4.6 will be used to determine the Service Rebates in Service Availability (S1) and Service Resumption Time (S2).
- 4.7.2 The application of the Service Level Rebates adjustment to the monthly charge will commence with effective from the acceptance of the reliability test.
- 4.7.3 For each month, the Service Rebates for different service measures (S1, S2) will be calculated as below if the Contractor cannot meet the target Service Levels for the WiFi network of the School under the availability agreed:

Failure Hour x [(Yearly Subscription Fee) / (365 x 24)] x 2, where

Failure Hour: The unscheduled downtime or the time to resume the network due to the failure of hardware or software which is provided by the Contractor. Failure Hour is calculated in the increment of 0.5 Hour.

- 4.7.4 The Service Rebates of the WiFi network of the School, if any, will be paid by crediting the invoice of the following month.

4.8 Helpdesk Service

- 4.8.1 The Helpdesk Service shall maintain dedicated hotline, including phone, email and fax, for enquiries and complaints.
- 4.8.2 The Helpdesk Service shall answer enquiries and complaints originated from the School concerning the Service.

4.8.3 The Helpdesk Service shall operate from Mon to Sun 00:00 am to 11:59 pm.

4.8.4 The Helpdesk Service shall maintain call logs on enquiries and complaints. The information shall be included but not be limited to date, time, description of issues, contact information, and follow-up actions. The Contractor shall observe and comply with Personal Data (Privacy) Ordinance in handling all information relating to these enquiries and complaints.

4.8.5 The Contractor shall provide the following information concerning the Helpdesk service related to the implementation of the Service:

- Detailed information of the helpdesk office, such as address, phone number, fax number; and
- Facilities, computer systems and equipment provided in the helpdesk office, such as private branch exchange (PBX), keyline telephone system (KTS), interactive voice response system (IVRS) and voice recording system.

4.8.6 The Contractor shall provide helpdesk staff with the necessary tools, including but not limited to hardware and software, related training for supporting the Service.

4.8.7 The Contractor shall not make use of the Helpdesk Service to transmit any message or conduct any activity to the School, which is not connected with the provision of the Service. The School shall have the full discretion to determine whether any such message or activity is in breach of this provision. The Contractor shall forthwith stop transmitting such message or conducting such activity and refrain from doing it further once the School has notified the Contractor in writing or verbally of its determination.

4.9 User Acceptance Test

4.9.1 The Contractor shall conduct tests with the School before the service is officially accepted and subscription started. Tests shall include User Acceptance Test for reliability and performance of the hardware and software, and also the monitoring, operation support and all other aspects related to the Service Level Agreement of the Service. At least 14 school working days of trial period is expected for service monitoring after testing.

4.9.2 The Contractor shall upon request by the School arrange briefings to the School and/or Responsible Parties of the School, with briefing materials, prior to the User Acceptance Test when required.

- 4.9.3 The Contractor shall provide detailed acceptance test plan and a step by step testing procedure with expected results against the requirements set out in this specification.
- 4.9.4 The Contractor shall provide, configure and set up the proper software and hardware for the School to carry out the User Acceptance Test.
- 4.9.5 The Contractor shall be required to carry out tests to demonstrate that the equipment and system meet the specification and other contractual requirements. The Contractor shall also be responsible for the timely preparation and compilation of all test schedules, test procedures and test reports.
- 4.9.6 The Contractor shall follow the agreed standards as laid down in this specification for the testing methods and procedures.
- 4.9.7 The Contractor shall submit a schedule of site performance and commissioning tests at least 3 working days prior to the commencement of the scheduled commissioning date.
- 4.9.8 Special tools, test equipment, test objects and simulators required for the demonstration of either bench or commissioning tests shall be made available by the Contractor at no extra charge to the School.
- 4.9.9 All test equipment used by the Contractor shall be properly and periodically calibrated. Measuring standards used in calibration shall be traceable to international or national measurement standards, or to an industry recognized manufacturer's reference, subject to approval of the School.
- 4.9.10 Calibration procedures and results shall be documented and signed by certifying body where applicable. The Contractor may be requested to show evidence of calibration of test equipment by submission of copies of these calibration records prior to conduction of any tests.
- 4.9.11 The Contractor shall submit the User Acceptance Test report within 3 working days. The acceptance of the installation will only be granted after receiving a satisfactorily UAT report from the Contractor.
- 4.9.12 All equipment to be installed may be subject to inspection and bench testing. The Contractor shall meet the cost of deliveries for bench test. Notwithstanding, the Contractor shall have carried out the tests in accordance with the requirements and procedures stipulated in this specification and submitted the

associated test reports for inspection.

4.10 **Termination of Service**

4.10.1 The School reserves the right to terminate all or part of the Service at any time with written notice of 10 working days in advance if:

- The Contractor fails to meet the target service levels under Service Level Requirements for two consecutive months, or three months in total within the committed subscription period;
- The School suspects that unauthorized activity has occurred or is occurring in relation to the Service;
- The provision of the Service will cause the School to be in breach of any applicable law;

4.10.2 The Contractor shall provide to the School and implement the Exit Plan in accordance with:

- The Contractor shall provide to the School an Exit Plan with feasible arrangements before the committed subscription contract date;
- If the School considers the Exit Plan as not satisfactory, it will notify the Contractor with comments. The Contractor shall revise the Exit Plan by taking into consideration of the School's comments and provide to the School with five (5) working days after the date of receiving the School's comments. If the Exit Plan has been considered as not satisfactory for three or more times, the School shall have the right to terminate this Contract by giving 10 days' notice in writing;
- Detailed exit procedures, disengagement timetable and actions to be taken by both the Contractor and the School for smooth termination of all or any part of the Service;
- The Exit Plan shall aim at enabling the School or its authorized parties to perform in substitution for the Contractor and to eliminate or minimize any disruption or deterioration of the Service. The Exit Plan shall contain, but not limited to the following information:
 - Detailed exit procedures, disengagement timetable and actions to be taken by both the Contractor and the School for smooth termination of all or any part of the Service;
 - Any information that is necessary for the School or a new service provider to continue the provision of the Service;
 - Any information that is necessary for the School or a new service provider to continue the provision of the Service;
 - Any information that is necessary for the School or a new service

provider to continue the provision of the Service;

- The Contractor shall be responsible for the implementation and execution of the Exit Plan and shall ensure that the exit plan is carried out in a timely and orderly manner.

4.11 Wi-Fi Project Reference

4.11.1 The Contractor shall list out 3 Wi-Fi 100 reference cases with compliment letters.

4.11.2 The compliment letters shall be provided during the quotation submission.

4.11.3 To prove that the Contractor has the capability on WiFi system design and maintenance, The Contractor shall list out 20 reference cases in non-subscription model which uses the same wireless solution vendor as the proposed brand in last 3 years while the cases in a single year shall not be less than 5.

4.11.4 The project references shall be provided during quotation submission.

5. Technical Specification (Add-on Requirement)

5.1 WiFi coverage – open areas

5.1.1 The Contractor should specify the extra open areas covered and the maximum number of connections in respective areas.

6. Wi-Fi.HK (optional service)

6.1 The implementation of Wi-Fi.HK is advocated by the School, the decision of the implementation will not be served as a basis of discrimination for proposal evaluation.

6.2 To make it easier for the public and visitors to access free Wi-Fi services in Hong Kong, one of the initiatives in the 2014 Digital 21 Strategy is to promote the free Wi-Fi services offered by the public and private sectors in Hong Kong under a common Wi-Fi brand “Wi-Fi.HK”. it will help the public and visitors find and connect to the public Wi-Fi hotspots throughout Hong Kong. These free hotspots will be promoted under the Wi-Fi.HK brand through various means as the Wi-Fi.HK thematic website and mobile app. With a common brand in place, it will create more business opportunities for the Wi-Fi.HK

participating organisations to promote and deliver their products and services to their customers by leveraging on mobile technologies.

6.3 Contractor is invited to provide free Wi-Fi service riding on the same Wi-Fi network infrastructure using the Wi-Fi.HK SSID for school visitors such as parents to access the Internet in schools and such services shall incur no additional charge to the School.

6.4 The following are the requirements of the Wi-Fi.HK scheme:

- Aggregated total of at least 30 minutes free access time per day per device;
- Service available 24 hours x 7 days;
 - All Access Points be registered with OFCA;
 - SSID of Access Points be presented in “Wi-Fi.HK via <designated name of service provider>” format;
- Landing page with Wi-Fi.HK logo, terms and conditions and disclaimers for user to accept for connection but no need for user to login using username or password;
- Hotline service and contact email be provided for public enquiry and technical support; and
- At least 100 Access Points be offered (counted by Services Providers including services in multiple schools)

6.5 The network for supporting Wi-Fi.HK shall not be allowed to have direct access to the School’s network. Connections via Wi-Fi.HK shall have access to the Internet only.

6.6 Content filtering is not a requirement for Wi-Fi.HK.

6.7 When the School terminates all or part of the Service, the Wi-Fi.HK service of the related area will be terminated together. The School also reserves the right to request the Contractor to terminate or suspend the Wi-Fi.HK service at any time.

6.8 More details of the scheme can be found at Wi-FiHK thematic website (<http://www.wi-fi.hk>).

7. Sub-Contracts

7.1 The Quoter shall be the prime Contractor for all the services specified in Part X and Part Y of this contract. The Quoter shall be the single point of contact for all contractual matters.

7.2 The Quoter shall be liable for the performance or breach of any provisions of the contract by Sub-Contractors.

7.3 The Quoter shall provide details of the sub-contract service for the Wifi operation and maintenance of the Sub-Contractors in the format listed on Section 5 of Part Y. The hierarchy of the sub-contracting shall also be clearly stated below. If there are no Sub-Contractors, please enter nil.

7.4 No Sub-Contractor(s) specified in Section 5 of Part Y shall be replaced unless prior written consent has been given by the School.

7.5 The Quoter shall ensure that the quality of the service rendered by the Quoter shall not be affected due to any change of Sub-Contractors;

7.6 The Quoter shall not be relieved from any of its obligations hereunder by entering into any sub-contract for the performance of any part of this contract. If request by the School, the Quoter shall describe which part of the service shall be performed by the Sub-Contractor(s) in the sub-contract(s) between the quoter and its Sub-Contractor(s).

8. Schedule of Work

8.1 The Contractor shall provide the service according to the following schedule.

Phase	Items	Starting Date	Ending Date	Service fee
I	Build up of WiFi network	On or before 2 Mar 2026	18 Mar 2026	0
II	Subscription of service	2 Mar 2026	3 Mar 2029	Quoted price

9. Terms of Payment

9.1 The subscription will be paid in arrears of each month during the subscription period.

10. Price Proposal

10.1 The Service Provider is required to provide a breakdown on the service charges for each of the service items as set out in the Price Proposal at **PART Y - PRICE SCHEDULE**. Failure in complying with this requirement will render the quotation disqualified.

10.2 Please note that, the School has the absolute discretion to accept the whole of

the Services or just part of the Services as listed out by items in the Price Proposal.

10.3 Set up cost will not be considered as a part of the cost in subscription mode.

11. **Invitation for Quotations**

11.1 Quotations are invited for the execution of the whole of the Services as described in this document. Quotations for part but not all of the Services will not be considered.

11.2 Please provide two sets of quotation documents for processing of the quotation.

12. **Quotation Preparation and Submission**

12.1 The Service Provider is required to submit the following information and document.

- A Statement of Compliance to provide response that the quotation complies with all requirements stated in this Specification.
- Price Schedule
- No upfront cost or one off cost schools shall be paid throughout the entire subscription period.
- Proposed AP location mark on the Floor plan.
- Proposed Network infrastructure show on the Network Diagram.
- Implementation Plan.
- WiFi Access Point certificates issued by OFCA.
- Product information including technical and descriptive literature and catalogues. Information provided by the manufacturer shall be able to substantiate that the products offered meet the mandatory Technical Specification.

13. **Selection and Payment**

School is looking for a contractor based on the following criteria

- Proposed pricing
- Proposed solution
- Equipment and services level
- Case reference
- Other useful information

14. Enquiry

For enquiry, please contact **Miss Cheng Pui Yu** of the School at yys@yukyinschool.edu.hk or by phone at 26729912.
